American Perfumer and Cosmetics

Index of Volume 86 January-December, 1971

Published by Allured Publishing Company
1031 South Boulevard, Oak Park, Illinois 60302, U.S.A.

A

Accelerated aerosol stability tests—Allen B. Reed, Jr., November, p. 37
Action of propellants on perfume constituents for aerosols, Chromatographic study of the—Louis Peyron, et al., September, p. 35
Adhesives, False eyelash—Teiko Hirata, et al., March, p. 55
A Digest of recent aerosol patents—Philip Alexander, November, p. 47
Aerosol antiperspirants, Current trends in—Andrew M. Rubino, October, p. 51
Aerosol bottles containing fluorocarbons and ethanol, Evaluation of polypropylene—Kiyoshi Hara, et al., November, p. 51
Aerosol containers packed with ethyl alcohol-chlorofluorocarbon systems, An Attempt to evaluate the corrosion of aluminum—Haruo Yamamoto, et al., November, p. 41
Aerosol cosmetics, Silicones provide real benefits for—Charles W. Todd, et al., October, p. 112
Aerosol face creams, Fruity—Dr. W. Pilz, et al., October, p. 73
Aerosol formulation, Powder—Harvey Mintzer, October, p. 97
Aerosol manufacturers, Quality assurance programs for—Lloyd T. Flanner, October, p. 116
Aerosol market, Japanese—Hiroumi Horikawa, October, p. 95
Aerosol personal products, Recent changes in formula technology of—Anthony J. Parisse, October, p. 46
Aerosol products, Irgasan® DP 300 in personal deodorant—Thomas E. Furia, October, p. 101
Aerosol products with addition of nitromethane, Effects on perfume stability and can corrosion in—Eiichi Togashi, et al., October, p. 58
Aerosol profits, Chlorinated solvents-the key to higher—Thomas Anthony, et al., October, p. 109
Aerosol propellants—Lloyd T. Flanner, April, p. 37
Aerosol valves-*Omnium gatherums*—Montfort A. Johnsen, October, p. 89
Aerosols, Basic research in regulating stable compound perfumes for—Hiroshi Ishikawa, et al., October, p. 42
Aerosols, Emollient after bath—L. S. David, October, p. 49
Aerosols in Europe, Personal product—Patrick Moxey, October, p. 78
Aerosols, Special fitments for pharmaceutical—David N. Parker, October, p. 105
Allantoin derivatives for cosmetic and dermatological application—S. B. Mecca, May, p. 39
Anabolic steroids on the skin, Potential uses for—Robert A. Turner, January, p. 39
An attempt to evaluate the corrosion of aluminum aerosol containers packed with ethyl alcohol-chlorofluorocarbon systems—Haruo Yamamoto, et al., November, p. 41
An introduction to contemporary eye make-up—Monroe Lanzet, March, p. 25
Anion-active surfactants. II. Examination of efficiency of preservatives in—G. Schuster, et al., February, p. 37
Application of mass spectrometry to natural product research—J. F. Janes, et al., September, p. 53
Ascorbic acid esters and skin pigmentation—Hiromichi Takashima, et al., July, p. 29

B

Basic research in regulating stable compound perfumes for aerosols—Hiroshi Ishikawa, et al., October, p. 42
Black cosmetics and the fragrance market: fact or fiction?—Joyce Sample, June, p. 48

C

Can corrosion in aerosol products with addition of nitromethane, Effects on perfume stability and—Eiichi Togashi, et al., October, p. 58
(The) Chemistry of essential oils and related products—Dr. Kurt Kulka, June, p. 67
Chlorinated solvents-the key to higher aerosol profits—Thomas Anthony, et al., October, p. 109
Chromatographic study of the action of propellants on perfume constituents for aerosols—Louis Peyron, et al., September, p. 35
Color additives to be used in eye preparations, U.S. Government Regulations on—Orville Davenport, March, p. 28
Coloring of eyelashes and eyebrows—Harold H. Tucker, March, p. 29
Contact lenses, Eye make-up and—Linda Allen, March, p. 34
Contamination control, Vigilance is the price of—Harvey Heuring, February, p. 53
Cosmetic and dermatological application, New allantoin derivatives for—S. B. Mecca, May, p. 39
Cosmetic industry, Legislation relevant to—D. Joan Suckling, May, p. 51
Cosmetic Institute, Prague—Čestmír Plachý, May, p. 57

Cosmetic industry, Legislation relevant to—D. Joan Suckling, May, p. 51
Cosmetic Institute, Prague—Čestmír Plachý, May, p. 57

Cosmetic manufacturing, Some microbiological aspects of—Carl R. Woodward, Jr., August, p. 45
Cosmetic products, The Significance of pseudomonads in—Saul Tenenbaum, January, p. 33
Cosmetic, The Microbiologically acceptable—M. S. Parker, December, p. 35
Cosmetics, Practical method for the microbiological examination of—C. R. Woodward, Jr., et al., February, p. 29
Cosmetics, Radiation for sterilization and perservation of—Simon Kinsman, February, p. 57
Cosmetics, Silicones provide real benefits for aerosol—Charles W. Todd, et al., October, p. 112
Cosmetics: sterility versus microbial control—Carl W. Bruch, April, p. 45
Cosmetics, Trends in U.K.—September, p. 58; December, p. 54
Cosmetics, White mineral oils for—Lanny G. Felty, November, p. 61
Creams, Fruity aerosol face—Dr. W. Pilz, et al., October, p. 73
Current FDA thoughts on cosmetics—Anne Wolven, January, p. 47
Current problems in cosmetic science—N. J. Van Abbe, May, p. 29
Current trends in aerosol antiperspirants—Andrew M. Rubino, October, p. 51

D

Deodorant aerosol products, Irgasan® DP 300 in personal—Thomas E. Furia, October, p. 101
Deodorants, Personal—John A. Cella, October, p. 84
Dermatological application, New allantoin derivatives for cosmetic and—S. B. Mecca, May, p. 39
(A) Digest of recent aerosol patents—Philip Alexander, November, p. 47

E

Effects on perfume stability and can corrosion in aerosol products with addition of nitromethane—Eiichi Togashi, et al., October, p. 58
Egyptian lemon, lime and mandarin, Study of peel oils of—M. S. Karawya, et al., June, p. 53
Emollient after bath aerosols—L. S. David, October, p. 49
Epimeric 10-cadinols. Essential oils and their constituents, VII.—Brian M. Lawrence, et al., September, p. 33
Essential oil and fragrance industry, The Future of the—Stephen R. Manheimer, June, p. 44
Essential oils and related products, The Chemistry of—Dr. Kurt Kulka, June, p. 67
(The) Essential Oils Association of U.S.A., Inc.—Donald H. Francis, February, p. 33
Essential oils, Vth International Congress of—September, p. 57
Ethyl alcohol-chlorofluorocarbon systems, An attempt to evaluate the corrosion of aluminum aerosol containers packed with—Haruo Yamamoto, et al., November, p. 41
Europe, Personal product aerosols in—Patrick Moxey, October, p. 78
Evaluation method for hair grooming materials—Earl L. Richardson, et al., February, p. 43
Evaluation of polypropylene aerosol bottles containing fluorocarbons and ethanol—Kiyoshi Hara, et al., November, p. 51
Examination of efficiency of preservatives in anion-active surfactants. II.—G. Schuster, et al., February, p. 37
Eyelashes and eyebrows, Coloring of—Harold H. Tucker, March, p. 29
Eye liners—Philip Rutkin, March, p. 31
Eye make-up, An introduction to contemporary—Monroe Lanzet, March, p. 25
Eye make-up and contact lenses—Linda Allen, March, p. 34
Eye make-up, Pearl luster in—Lauren C. Kingman, Jr., March, p. 35
Eye make-up preparations in the patent literature of the last decade—P. Alexander, April, p. 51
Eye make-up removers—Mitchell L. Schlossman, March, p. 61
Eye make-up, Veegum in—B. C. Carlson, March, p. 39
Eye preparations, U.S. Government Regulations on color additives to be used in—Orville Davenport, March, p. 28

F

Facing the facts of perfumery—Paul E. Johnson, June, p. 34
False eyelash adhesives—Teiko Hirata, et al., March, p. 55
Fatty acids and derivatives, Lanolin—J. Thewlis, August, p. 39
FDA thoughts on cosmetics, Current—Anne Wolven, January, p. 47
Vth International Congress of Essential Oils—September, p. 57
Fitments for pharmaceutical aerosols, Special—David N. Parker, October, p. 105
Formula technology of aerosol personal products, Recent changes in—Anthony J. Parisse, October, p. 46
Formulation aspects of ophthalmic solutions—Glen J. Sperandio, et al., March, p. 51
Fragrance market: fact or fiction? Black cosmetics and the—Joyce Sample, June, p. 48
Fragrances for the paper industry—A. F. Morris, September, p. 45
Fragrances of the 'Seventies, New—Gustav Carsch, June, p. 63
Fruity aerosol face creams—Dr. W. Pilz, et al., October, p. 73
(The) Future of the essential oil and fragrance industry—Stephen R. Manheimer, June p. 44

G

Gamma irradiation. Microbiological studies on pressed powders and the sterilizing effect of—Herbert N. Prince, et al., August, p. 49

H

Hair dyes, Laboratory introduction to oxidation—G. S. Kass, August, p. 33
Hair grooming materials, Evaluation method for—Earl L. Richardson, et al., February, p. 43
Hair sprays-Future?—Morris J. Root, October, p. 39
Highlights of the PMMI Packaging Show—William J. Mead, December, p. 49

I

Inhibition of seborrhea by means of a specific metabolic blocking—G. Aubin, et al., December, p. 29
Interaction between preservatives and suspension systems—N. R. Horn, et al., July, p. 37
Interference of some substances with water vapor loss of human skin—D. Spruit, August, p. 27
In this world, many odors—William McCartney, September, p. 39

XUM

(An) Introduction to contemporary eye make-up—Monroe Lanzet, March, p. 25
Irgasan® DP 300 in personal deodorant aerosol products—Thomas E. Furia, October, p. 101
Irradiation sterilization of medical supplies, wood products and paper, Recent developments in—W. Kuhn, May, p. 35
Irritations by shampoos, Skin and mucous membrane—Dr. O. K. Jacobi, et al., July, p. 41

J

Japanese aerosol market—Hiroumi Horikawa, October, p. 95

L

Laboratory introduction to oxidation hair dyes—G. S. Kass, August, p. 33
Lanolin fatty acids and derivatives—J. Thewlis, August, p. 39
Legislation relevant to the cosmetic industry—D. Joan Suckling, May, p. 51
Lemon, lime, and mandarin, Study of peel oils of Egyptian—M. S. Karawya, et al., June, p. 53
Liners, Eye—Philip Rutkin, March, p. 31

M

Make-up, Pigments for—Charles R. Kircher, January, p. 25
Mandarin, Study of peel oils of Egyptian lemon, lime, and— M. S. Karawya, et al., June, p. 53
Mass spectrometry to natural product research, Application of—J. F. Janes, et al., September, p. 53
Metabolic blocking, Inhibition of seborrhea by means of a specific—G. Aubin, et al., December, p. 29
Microbial control, Cosmetics: sterility versus—Carl W. Bruch, April, p. 45
Microbiological aspects of cosmetic manufacturing, Some—Carl R. Woodward, Jr., August, p. 45
Microbiological examination of cosmetics, Practical method for the—Carl R. Woodward, Jr., et al., February, p. 29
Microbiological studies on pressed powders and the sterilizing effect of gamma irradiation—Herbert N. Prince, et al., August, p. 49
(The) Microbiologically acceptable cosmetic—M. S. Parker, December, p. 35
Mineral oils for cosmetics, White—Lanny G. Felty, November, p. 61
Modern mascara technology—Adolph Maruszewski, March, p. 45
Mucous membrane irritations by shampoos, Skin and—Dr. O. K. Jacobi, et al., July, p. 41

N

Natural product research, Application of mass spectrometry to—J. F. Janes, et al., September, p. 53
New allantoin derivatives for cosmetic and dermatological application—S. B. Mecca, May, p. 39
New fragrances of the 'Seventies—Gustav Carsch, June, p. 63
Nitromethane, Effects on perfume stability and can corrosion in aerosol products with addition of—Eiichi Togashi, et al., October, p. 58
Nucleus substitution products of p-phenylenediamine—Dr. H. Heilingötter, June, p. 75

O

Odor eliminators, So-called—Dr. Ernst Paukner, October, p. 67
Odors, In this world, many—William McCartney, September, p. 39
Ointments and preservatives, Sterile—T. Werner Schwarz, December, p. 39
Oleoresins in perfumery—an interview with Dr. Ernest Guenther, The Role of—Robert J. Eiserle, September, p. 47; Part II, November, p. 57
Omnium gatherums, Aerosol valves—Montfort A. Johnsen, October, p. 89
Ophthalmic solutions, Formulation aspects of—Glen J. Sperandio, et al., March, p. 51
Oxidation hair dyes, Laboratory introduction to—G. S. Kass, August, p. 33

P

Paper industry, Fragrances for the—A. F. Morris, September, p. 45
Patent literature of the last decade, Eye make-up preparations in the—P. Alexander, April, p. 51
Patents, A Digest of recent aerosol—Philip Alexander, November, p. 57
Pearl luster in eye make-up—Lauren C. Kingman, Jr., March, p. 35
Peel oils of Egyptian lemon, lime, and mandarin, Study of—M. S. Karawya, et al., June, p. 53
Perfume constituents for aerosols, Chromatographic study of the action of propellants on—Louis Peyron, et al., September, p. 35
Perfume laboratory, Possible ways of organizing a—G. J. E. Hackforth-Jones, June, p. 38
Perfume maturing and stability—Donald Conover, January, p. 49
Perfume stability and can corrosion in aerosol products with addition of nitromethane, Effects on—Eiichi Togashi, et al, October, p. 58
Perfumery—an interview with Dr. Ernest Guenther, The Role of oleoresin in—Robert J. Eiserle, September, p. 47; Part II., November, p. 57
Perfumery, Facing the facts of—Paul E. Johnson, June, p. 34
Perfumes for aerosols, Basic research in regulating stable compound—Hiroshi Ishikawa, et al., October, p. 42
Personal deodorants—John A. Cella, October, p. 84
Personal product aerosols in Europe—Patrick Moxey, October, p. 78
Personal products, Recent changes in formula technology of aerosol—Anthony J. Parisse, October, p. 46
Pharmaceutical aerosols, Special fitments for—David N. Parker, October, p. 105
p-Phenylenediamine, Nucleus substitution products of —Dr. R. Heilingötter, June, p. 75
Pigments for make-up—Charles R. Kircher, January, p. 25
PMMI Packaging Show, Highlights of—William J. Mead, December, p. 49
Polypropylene aerosol bottles containing fluorocarbons and ethanol, Evaluation of—Kiyoshi Hara, et al., November, p. 51
Possible ways of organizing a perfume laboratory—G. J. E. Hackforth-Jones, June, p. 38
Potential uses for anabolic steroids on the skin—Robert A. Turner, January, p. 39
Powder aerosol formulation—Harvey Mintzer, October, p. 97
Practical method for the microbiological examination of cosmetics—C. R. Woodward, Jr., et al., February, p. 29
Prague Cosmetic Institute—Čestmír Plachý, May, p. 57
Preservation of cosmetics, Radiation for sterilization

and—Simon Kinsman, February, p. 57
Preservatives and suspension systems, Interaction between—N. R. Horn, et al., July, p. 37
Preservatives in anion-active surfactants. II. Examination of efficiency of—G. Schuster, et al., February, p. 37
Preservatives, Sterile ointments and—T. Werner Schwarz, December, p. 39
Pressed powders and the sterilizing effect of gamma irradiation, Microbiological studies on—Herbert N. Prince, et al., August, p. 49
Progress in perfumery materials—Paul Z. Bedoukian, April, p. 25
Propellants, Aerosol—Lloyd T. Flanner, April, p. 37
Pseudomonads in cosmetic products, The Significance of—Saul Tenenbaum, January, p. 33

Q

Quality assurance programs for aerosol manufacturers —Lloyd T. Flanner, October, p. 116

R

Radiation for sterilization and preservation of cosmetics —Simon Kinsman, February, p. 57
Recent changes in formula technology of aerosol personal products—Anthony J. Parisse, October, p. 46
Recent developments in irradiation sterilization of medical supplies, wood products, and paper—W. Kuhn, May, p. 35
Regulating stable compound perfumes for aerosols, Basic research in—Hiroshi Ishikawa, et al., October, p. 42
Regulations on color additives to be used in eye preparations, U.S. Government—Orville Davenport, March, p. 28
Removers, Eye make-up—Mitchell L. Schlossman, March, p. 61
(The) Role of oleoresins in perfumery—an interview with Dr. Ernest Guenther—Robert J. Eiserle, September, p. 47; Part II, November, p. 57

S
